

GOSS M-800

The double-circumference M-800™ press utilizes proven design elements from other Goss® presses, including Sunday™ models, to achieve a unique combination of value and performance. With a 4x4 cylinder configuration and the JF-70 Collect, this system can deliver up to 35,000 32-page signatures in collect production or 70,000 16-page signatures in straight production. The M-800 press also complements 16-page presses, giving printing facilities the versatility of 2x4 and 4x4 production with a single web width and paper supply.

Features

- In-line cylinder stack
- Multidrive
- 14-roll ink train with three form rolls and 3 vibrator rolls
- Bearerless cylinders and pivoting cylinder housings
