

GOSS SUNDAY 5000

The Sunday™ 5000, the world's first 96-page web offset press, utilizes the proven advantages of Goss® gapless blanket technology to deliver high output and high quality. Fast makereadies and simplified operation also create a unique ability to print high-pagination jobs more efficiently and competitively, even at extremely short run lengths.

Features

- 2860-mm (112-inch) web widths
- Premium print quality
- Diverse commercial and publication applications
- Fast makereadies and low waste
- Paper savings via smaller non-print area and shorter cutoff
- Gapless blankets
- Independent AC drives
- Autoplate™ fully automatic plate changing
- Automatic Transfer™ option for on-the-run job changes
- Convertible inking and dampening
- 14-roll ink train
- Omnicon™ control system
- Goss Web Center™ workflow, including
 - Omni Presetting™ for job preparation
 - Omni Makeready™ for waste reduction
 - Omni Reporting™ for job data collection
